

## INDEX.

- Ackley well, 189.  
Administrative reports, 18.  
Algonkian, 186.  
Allamakee county, 21.  
Allamakee maps, 26.  
Alluvium, 392.  
Altitudes in Des Moines county, 418.  
Altitudes in Lee county, 313.  
Analyses of gypsum, 291.  
Andrew outlier, 131.  
Applegate quarry, 383.  
Aragonite in Lee county, 404.  
Area of Lee county, 309.  
Areal work, 58.  
Argyle, elevation of, 313.  
Artesian waters, 68.  
Artesian well work, 34.  
Artesian wells at Keokuk, 405.  
Assistants, 12.  
Atlie, M., 407.  
Atlie well, 406.  
Augusta, in Des Moines county, 439, 477.  
Augusta, in Lee county, 340.  
Augusta, Coal Measures near, 484.  
Section at, 423.  
Quarries at, 472.  
Availability of gypsum, 297.  
  
Baehring quarry, 274.  
Bailey, J. W., 216.  
Bain, H. F., 23, 35.  
Cretaceous Deposits of the Sioux Valley, 99.  
Ballinger, quarries near, 382.  
Balm quarry, 388.  
Barnard, John, 44.  
Bartell brick yard, 395.  
Basal sandstone of coal measures, 353.  
Bascom quarry, 388.  
Beath, Jos., 43.  
Beeres, S. S., 43.  
Belfast, elevation of, 313.  
Exposure at, 331.  
Quarries near, 381, 384.  
Benton shales, 109.  
Bertram outlier, 118.  
Bevington, 143.  
Beyer, S. W., 34.  
Big Mound, elevation of, 313.  
Big Hollow, section at, 429.  
Bingham, A. M., 43.  
  
Blue boulder clay in Lee county, 357.  
Boone county, 35.  
Borings in gypsum region, 281.  
Brecciated Limestone—(See Saint Louis.)  
Brecciation of Saint Louis, 316, 348.  
Brick —(See clay.)  
Brighton, 154.  
Building material, 293.  
Building stones, 66.  
In Des Moines county, 462.  
In Lee county, 375.  
Buried River Channels in southeastern Iowa, 237.  
In Lee county, 366.  
Burlington, elevation of, 418.  
Anticline, 461.  
Clay industries, 479.  
Glacial strike near, 155, 458.  
Quarries at, 466.  
Sections at, 423, 455, 456.  
Topography of, 452.  
Burnt clay, 398.  
  
Cabinet, 30.  
Calcination of gypsum, 301.  
Calcite, in Des Moines county, 487.  
In Lee county, 403.  
Calcopyrite, in Lee county, 402.  
Calvin, Samuel, Administrative report, 26.  
Cited, 114.  
Composition and Origin of Iowa Chalk, 211.  
Cambrian, 184.  
Canton outlier, 122.  
Carboniferous outliers, 115.  
Cascade quarries, 469.  
Cedar Bluff, 108.  
Cedar Rapids well, 105.  
Cemetery section at Keokuk, 325.  
Cements, 87.  
From gypsum, 294.  
In Lee county, 398.  
Centerville well, 205.  
Certain Devonian and Carboniferous Outliers in Eastern Iowa, 115.  
Chalk, composition and origin, 211.  
Comparisons with English, 235.  
Conditions of formation, 231.  
Examination of, 225.  
Organisms in, 228.  
Chamberlain, T. C., 149, 257.

- Charleston, elevation of, 313.  
 Charlotte outlier, 131.  
 Chemical analysis of gypsum, 291.  
 Chemical work, 77.  
 Chemist, report of, 39.  
 Choteau limestone, 433.  
 City quarry at Burlington, 468.  
 Classification of Formations in Des Moines county, 421.  
     In Lee county, 319.  
 Clay industries of Des Moines county, 479.  
     Of Lee county, 393.  
 Clays, examination of, 36, 63.  
     Of Des Moines county, 476.  
     Of Lee county, 389.  
 Clayton county, 21.  
 Clear creek outlier, 121.  
 Coal analyses, 39.  
     Deposits, area of, 61.  
     Deposits, report on, 95.  
     Deposits, work on, 60.  
     In Des Moines county, 483.  
     In Lee county, 369.  
 Measures—(See also Upper Carboniferous.)  
     Measure fossils at Keokuk, 355.  
 Measures in Des Moines county, 448, 478, 483.  
 Measures in gypsum region, 265.  
 Measures in Lee county, 352.  
 Measure shales, 390.  
     Near Augusta, 484.  
     Near Danville, 484.  
     Near Denmark, 370.  
     Near Denver, 372.  
     Near Donnellson, 373.  
     Near Saint Paul, 371.  
     Near West Point, 371.  
     Work on, 20, 31.  
 Coalville, 279.  
 Collections, 77.  
 Collier, D. C., 236.  
 Composition and Origin of Iowa Chalk, 211.  
 Concretionary limestone —(See Saint Louis.)  
 Conrad, T., 217.  
 Conroy quarry, 379.  
 Contents, 13.  
 Co-operation in soil work, 43.  
 Copper in Des Moines county, 485.  
     In Lee county, 400.  
 Correlation of Kinderhook, 436.  
 Cottonwood, elevation of, 313.  
 County work, 33, 74.  
 Cox, L. A., 407.  
 Coyle quarry, 378.  
 Cretaceous Deposits of the Sioux Valley, 99.  
     Upper Missouri, section of, 106.  
 Crills mill section, 105.  
 Cross-sections in Des Moines county, 460.  
     In Lee county, 362.  
 Croton, elevation of, 313.  
     Section, 333.  
     Quarries near, 384.  
 Crystalline rocks, 94.  
 Cummins quarry, 275.  
**Dakota formation, 108.**  
 Dana, J. D., 213.  
 Danville, Coal Measures near, 484.  
     Elevation of, 418.  
     Quarries near 484.  
     Section near, 424.  
 Davenport well, 200.  
 Dawson, G. M., 218.  
 Deamude quarry, 381.  
 Deformation in Lee county, 361.  
 Delaware county, 22.  
 Denmark, coal near, 371.  
     Lime kilns, 399.  
     Sections, 328.  
 Denver, coal near, 372.  
 Deodorizers from gypsum, 294.  
 Des Moines county, altitudes in, 418.  
     Alluvial clays of, 479.  
     Augusta, section at, 423.  
     Augusta clay beds, 479.  
     Augusta formation, 439.  
     Augusta township quarries, 472.  
     Benton township quarries, 476.  
     Big Hollow section, 429.  
     Building stones of, 462.  
     Burlington township quarries, 466.  
     Classifications of formations in, 421.  
     Clay deposits, 476.  
     Clay industries of, 479.  
     Coal in, 483.  
     Coal Measures, 448, 483.  
     Coal Measure building stones, 465.  
     Coal Measure clays, 478.  
     Cross-section along Mississippi, 425, 460.  
     Cross-section along Skunk, 428.  
     Danville, section near, 424.  
     Danville township quarries, 473.  
     Des Moines, formation in, 448.  
     Dip along Skunk, 461.  
     Distribution of clays, 476.  
     Dolbee creek section, 426.  
     Drainage, 418.  
     Drainage, map of, 419.  
     Early geological work in, 413.  
     Extent of, 413.  
     Flint river in, 420.  
     Flint River township quarries, 474.  
     Flood plain of Flint, 417.  
     Flood plain of Mississippi, 416.  
     Flood plain of Skunk, 417.  
     Franklin township quarries, 475.  
     General section in, 421.

- Geode shales, 445.  
 Geological cross-sections, 460.  
 Geological formations, 430.
