IOWA
GEOLOGICAL SURVEY

VOLUME XVII

ANNUAL REPORT, 1906

WITH

ACCOMPANYING PAPERS

SAMUEL CALVIN, PH. D., STATE GEOLOGIST
JAMES H. LEES, ASSISTANT STATE GEOLOGIST

DES MOINES:
PUBLISHED FOR IOWA GEOLOGICAL SURVEY,
1907.

DES MOINES:
EMORY H. ENGLISH, STATE PRINTER
E. D. CHASSELL, STATE BINDER
1907

GEOLOGICAL BOARD.

HIS EXCELLENCY, A. B. CUMMINS.....GOVERNOR OF IOWA
HON. B. F. CARROLL.....AUDITOR OF STATE
DR. GEO. E. MACLEAN.....PRES. STATE UNIVERSITY OF IOWA
DR. A. B. STORMS.....PRES. IOWA STATE COLLEGE
PROF. J. L. TILTON.....PRES. IOWA ACADEMY OF SCIENCES

GEOLOGICAL CORPS.

SAMUEL CALVIN.....	STATE GEOLOGIST
JAMES H. LEES.....	ASSISTANT STATE GEOLOGIST
NELLIE E. NEWMAN.....	SECRETARY
S. W. BEYER.....	SPECIAL ASSISTANT
W. H. NORTON.....	SPECIAL ASSISTANT
T. H. MACBRIDE.....	SPECIAL ASSISTANT
M. F. AREY.....	SPECIAL ASSISTANT
I. A. WILLIAMS.....	SPECIAL ASSISTANT
S. W. STOOKEY.....	SPECIAL ASSISTANT
HENRY HINDS.....	SPECIAL ASSISTANT

CONTENTS.

MEMBERS OF GEOLOGICAL BOARD.....	III
GEOLOGICAL CORPS.....	IV
TABLE OF CONTENTS.....	V
LIST OF ILLUSTRATIONS.....	VI
ADMINISTRATIVE REPORTS.....	1
STATISTICS OF MINERAL PRODUCTION FOR 1906.....	11
QUARRY PRODUCTS OF IOWA.....	27
Materials and Manufacture of Portland Cement, S. W. Beyer and I. A. Williams	29
Physical Tests of Iowa Limes, S. W. Beyer.....	91
Selection of Power Plants and Equipment for Stone Quarries in Iowa. G. W. Bissell.....	151
Geology of Quarry Products, S. W. Beyer and I. A. Williams; with intro- duction by Samuel Calvin.....	185
ANALYSES OF IOWA COALS.....	529
ANALYSES OF LIMESTONES AND CHALKS.....	531
ANALYSES OF CLAYS, SHALES AND MARLS.....	538
TESTS OF IOWA BUILDING STONES, A. MARSTON.....	541
DIRECTORY OF IOWA LIMESTONE QUARRIES BY COUNTIES.....	560
DIRECTORY OF IOWA SANDSTONE QUARRIES BY COUNTIES.....	585
INDEX	589

LIST OF ILLUSTRATIONS.

PLATES.	PAGE.
	Map showing progress of detailed mapping, to face..... 1
I.	Geological map of Iowa showing quarries, etc., to face..... 4
II.	Production of stone in Iowa from 1896 to 1906..... 17
III.	Production of gypsum and lime in Iowa from 1896 to 1906..... 19
IV.	Production of lime and gypsum in the United States from 1896 to 1905 20
V.	Production, imports and prices of cements in the United States from 1894 to 1905..... 24
VI.	Diagrams showing effects on lime of different sand-lime ratios.. 113
VII.	Diagrams showing effects on lime of different setting periods and of different percentages of water..... 115
VIII.	Diagrams showing effects on lime of different setting periods.. 119
IX.	Diagrams showing effects on lime of different percentages of water 120
X.	Diagrams showing effects on lime of different sand-lime ratios.. 121
XI.	Diagrams showing effects on lime of different setting periods.. 124
XII.	Diagrams showing effects on lime of different percentages of water 125
XIII.	Diagrams showing effects on lime of different sand-lime ratios.. 126
XIV.	Diagrams showing effects on lime of different setting periods.. 128
XV.	Diagrams showing effects on lime of different percentages of water 129
XVI.	Diagrams showing effects on lime of different sand-lime ratios.. 130
XVII.	Diagrams showing effects on lime of different setting periods.. 136
XVIII.	Diagrams showing effects on lime of different percentages of water 137
XIX.	Diagrams showing effects on lime of different sand-lime ratios.. 138
XX.	Diagrams showing effects on lime of different periods of setting 139
XXI.	Diagrams showing effects on lime of different percentages of water 140
XXII.	Diagrams showing effects on lime of different sand-lime ratios.. 141
XXIII.	Diagrams showing effects on lime of different periods of setting 144
XXIV.	Diagrams showing effects on lime of different percentages of water 145
XXV.	Diagrams showing effects on lime of different sand-lime ratios.. 146
XXVI.	Domeless boiler with nozzles, shell extended and fitted with flue door and up-take for half arch front, manhole exposed, cast-iron lugs 157

LIST OF ILLUSTRATIONS

vii

PLATES.	PAGE.
XXVII.	Method of hanging a shell boiler..... 162
XXVIII.	Setting for horizontal tubular boiler, to face..... 162
XXIX.	Type of boiler feed-pump: simple direct action, in section..... 165
XXX.	Geological section of Iowa..... 192
XXXI.	Quarry of Clayton White Sand Company, Clayton, Clayton county. The beds developed belong to the Saint Peter sandstone 209
XXXII.	View three-fourths mile below Spechts Ferry, Dubuque county, showing in ascending order: 1. Saint Peter sandstone; 2. Basal shale; 3. Lower Buff beds; 4. Thin, brittle, blue beds.. 215
XXXIII.	Quarry and plant of Eagle Point Lime Co., Eagle Point, Dubuque county 219
XXXIV.	Chert beds of the Maquoketa, Clermont, Fayette county..... 221
XXXV.	Main pit of Bealer quarry showing channelers, Cedar Valley, Cedar county..... 237
XXXVI.	Quarry methods in vogue at the Bealer quarry..... 241
XXXVII.	Horizontal Coggan beds overlying the oblique-bedded LeClaire phase of the Gower limestone at Lime City, Cedar county.... 249
XXXVIII.	Thomas Carey quarry section showing the general character of the Niagara beds of the region. Clinton, Clinton county..... 255
XXXIX.	Old Randall quarry near Big Rock, Clinton county, showing heavy Niagara beds..... 259
XL.	A. Hurst Lime Company plant at Pinhook, showing elevated track, kilns and stock house. Jackson county..... 275
XLi.	Champion quarry, showing track and derrick arrangements and channeler. Stone City, Jones county..... 281
XLII.	John Ronen quarry, showing arrangement of tracks, derricks and crusher plant. Stone City..... 285
XLIII.	State quarry, Anamosa, Jones county. All work is done by hand power 287
XLIV.	General view of LeClaire Stone Company quarry near LeClaire, Scott county 295
XLV.	Quarry and crusher plant of the Cedar River Stone Company, near Waverly, Bremer county. The irregularly bedded stage of the Devonian is well shown in the quarry..... 311
XLVI.	Kuppinger quarry, Mason City, Cerro Gordo county, showing dolomite below, compact white limestone in the middle and the Stromatopora near the top..... 321
XLVII.	a. Charles City quarry; b. Shell Rock river, Nora Springs; c. Floyd quarry. All Floyd county..... 333
XLVIII.	Quarries at Marble Rock, Floyd county, showing Stromatopora and brecciated zones..... 337
XLIX.	a. Cresco city quarry; b. quarry at Elma; c. Hallman quarry, Cresco. All Howard county..... 345
L.	State Quarry beds, State Quarry, Johnson county..... 351
LI.	Clark quarry, near Buffalo, Scott county, showing trackage arrangements and irregular beds..... 365

PLATES.	PAGE.
LII.	a. Section at Keokuk showing chert beds; b. Government quarries below Burlington showing Kinderhook limestone..... 373
LIII.	Quarry of LeGrand Quarry Company, Quarry, Marshall county.. 389
LIV.	Quarry at McGavic mill, Keokuk..... 409
LV.	Old quarry opening in Bentonsport, Van Buren county..... 417
LVI.	a. Abandoned Santa Fe quarry east of Belfast, Lee county; b. quarry southeast of Mt. Pleasant, Henry county; c. geode-bearing shale, west of Farmington, Van Buren county..... 431
LVII.	a. Near view of quarry face, Tracy, Marion county, showing Pella beds; b. Miller quarry, about two miles north of Sigourney, Keokuk county, showing Pella beds; c. local unconformity in Verdi beds, near Showman, Keokuk county..... 439
LVIII.	Andrew Lames quarry, Dudley, Wapello county..... 457
LIX.	Des Moines sandstone quarries west of Amana, Iowa county.. 467
LX.	S. A. Robertson quarry, Earlham, Madison county, showing the principal limestone beds with their characteristic clay partings 499
LXI.	Typical exposure of the Missouri stage of the Coal Measures. Fate quarry, Stennett, Montgomery county..... 509
LXII.	Chalk cliff on the Sioux river, Plymouth county..... 523

FIGURES.	PAGE.
1.	Boiler with dome, shell extended for full front, wrought-iron hinges.. 156
2.	Type of boiler feed-pump, duplex..... 164
3.	Duplex pump in section..... 164
4.	Open feed-water heater..... 167
5.	Closed feed-water heater..... 168
6.	Test of producer gas engine..... 182
7.	St. Croix sandstone at McGregor, Clayton county, showing absence of well defined bedding planes..... 202
8.	Effect of weathering on hard beds of Saint Peter sandstone near Heffner's, Allamakee county..... 206
9.	Quarry in Lower Buff beds at McGregor..... 208
10.	Stone bridge at Elkader, Clayton county, built of Galena limestone... 213
11.	Beds of <i>Isotelus maximus</i> which constitute the basal deposits of the Maquoketa shales, Clermont township, Fayette county..... 224
12.	Exposure of New Richmond sandstone, Glenwood township, Winneshiek county 227
13.	Cliff of Galena limestone at Bluffton, Winneshiek county..... 228
14.	Exposure of Decorah shales with overlying basal ledges of the Galena limestone, Decorah, Winneshiek county..... 229
15.	Portion of retaining wall around court house at Decorah, showing unreliable character of Platteville limestone..... 231

LIST OF ILLUSTRATIONS

ix

FIGURES.	PAGE.
16. Quarry in Fort Atkinson limestone, Fort Atkinson, Winneshiek county	232
17. Pentamerus-bearing limestone, Earlville, Delaware county.....	264
18. Arquitt Bros.' quarry, North Farley, Dubuque county.....	267
19. Wilkes Williams quarry, showing rough, heavy-bedded facies of the Niagara. Union township, Fayette county.....	272
20. Lime quarry at Hurstville, Jackson county, showing the massive char- acter of this phase of the Hopkinton.....	274
21. Abandoned quarry in Taylor township, Benton county, showing the <i>Acerularia davidsoni</i> reef.....	301
22. City quarry at Independence, Buchanan county, showing crushing in <i>Spirifer pennatus</i> zone.....	315
23. Schrader quarry, Clarksville, Butler county, showing the flaggy, litho- graphic phase of the Cedar Valley.....	318
24. Quarry in cherty dolomite beds at the <i>Gypidula comis</i> horizon, Chicka- saw, Chickasaw county.....	329
25. Snouffer quarry, Cedar Rapids, Linn county.....	355
26. Cliff of Cedar Valley limestone in Osage township, Mitchell county....	357
27. Lewis lime quarry, Osage, Mitchell county.....	359
28. Shows "chipstone" weathering characteristic of the compact layers in the Kinderhook limestone in Humboldt county.....	385
29. Steven's quarry in the Kinderhook, Indian Village township, Tama county	399
30. Davis quarry in Warsaw sandstone west of Bentonsport, Van Buren county	416
31. Section along the C. R. I. & P. Ry., below Belfast, showing Warsaw sandstones below and Saint Louis limestone above. Van Buren county	434
32. Exposure of Saint Louis limestone, near Harvey, showing Pella beds..	441
33. Saint Louis limestone beds near Gilmore.....	444
34. Representative section of Saint Louis limestone along Onion creek northwest of Ames.....	447
35. Saint Louis limestone along creek west of Farmington, Van Buren county	452
36. John Lafferty quarry, Eddyville.....	455
37. Quarry in bed of the Des Moines river at Ottumwa.....	459
38. Irregular beds of limestone in the Saint Louis, Vendi quarry, Washing- ton county	461
39. Herwehe quarry in Red Rock Sandstone, Fairview township, Jasper county. Cross-bedding is conspicuous.....	474
40. Winterset limestone on Pot Hole creek with shales below extending down to the Earlham limestone.....	491
41. Retaining wall north of Thurman showing characteristic weathering of Missouri limestone as developed in the immediate vicinity.....	493
42. Winterset quarry, Winterset, Madison county.....	502
43. Quarry southwest of Winterset, showing limestone above the black shale	503
44. Exposure of the Forbes limestone near Hawleyville, Page county.....	513
