GEOLOGICAL BOARD.

HIS EXCELLENCY, A. B. CUMMINS - - - GOVERNOR OF IOWA
HON. B. F. CARROLL - - - - - AUDITOR OF STATE
DR. GEO. E. MACLEAN - - PRES. STATE UNIVERSITY OF IOWA
DR. A. B. STORMS - - - - PRES. IOWA STATE COLLEGE
PROF. M. F. AREY - - - PRES. IOWA ACADEMY OF SCIENCES

GEOLOGICAL CORPS.

FRANK A. WILDER.....STATE GEOLOGIST
T. E. SAVAGE.....ASSISTANT STATE GEOLOGIST

LOUIS G. MICHAEL.....CHEMIST
SAMUEL CALVIN.....SPECIAL ASSISTANT
S. W. BEYER.....SPECIAL ASSISTANT
W. H. NORTON.....SPECIAL ASSISTANT
J. A. UDDEN.....SPECIAL ASSISTANT
T. H. MACBRIDE.....SPECIAL ASSISTANT
IRA A. WILLIAMS.....SPECIAL ASSISTANT
NELLIE E. NEWMAN.....SECRETARY

CONTENTS.

	PAGE.
MEMBERS OF GEOLOGICAL BOARD.....	III
GEOLOGICAL CORPS.....	IV
TABLE OF CONTENTS.....	V
LIST OF ILLUSTRATIONS.....	VI
ADMINISTRATIVE REPORTS.....	1
STATISTICS OF MINERAL PRODUCTION FOR 1904.....	15
CEMENT AND CEMENT MATERIALS OF IOWA.....	33
GEOLOGY OF BENTON COUNTY.....	125
GEOLOGY OF EMMET, PALO ALTO AND POCAHONTAS COUNTIES.....	227
GEOLOGY OF JASPER COUNTY.....	277
GEOLOGY OF CLINTON COUNTY.....	369
GEOLOGY OF FAYETTE COUNTY.....	433

LIST OF ILLUSTRATIONS.

PLATES.

- I. Map showing progress of detailed mapping.
- II. Diagram showing the relation of domestic production of Portland cement to imports and to total consumption in the United States, 1890-1902, inclusive.
- III. View of the Rotary Kiln; also showing method of firing with powdered coal under blast.
- IV. View of the town of Estherville, and the prevailing topography of the Wisconsin drift.
- V. Trenching in the loess and Kansan drift, one-half mile east of Kellogg, in section 25, Kellogg township.
- VI. Log of the latest well drilled for the city waterworks, at Clinton.
- VII. Section of the rocks underlying Clinton county, along the Mississippi river.

FIGURES.

1. Iowan-Kansan border near the middle of Leroy township.
2. Mild erosional topography of the Kansan drift area in section 26, Leroy township.
3. Prairie landscape over the Iowan drift plain; northwest of Keystone, in Kane township.
4. Large granite boulder of Iowan age, near Shellsburg, Benton county.
5. Lake on the Iowan drift area, section 15, Benton township.
6. Exposure in Wallace's quarry near the southeast corner of section 36, Cedar township.
7. Exposure of the lower portion of the Cedar Valley limestone in the Quinn quarry, near Vinton.
8. View of the *Spirifer pennatus* beds in the east bluff of Cedar river, section 15, Taylor township.
9. Exposure showing the character of the layers between the *Acervularia davidsoni* coral reef and the zone of *A. profunda*, section 15, Taylor township.
10. Exposure of Cedar Valley limestone in the east bank of the Cedar river; Harrison township in Benton county.
11. Long's quarry in the east bank of the Cedar river, section 4 of Harrison township.
12. Exposure of the Stromatopora horizon in the abandoned quarry on Hinkle creek, near Garrison, Iowa.
13. Iowan boulders in section 15 of Benton township.

FIGURES.

14. Some results of disastrous rain-wash of the land. Looking down the Cedar river in section 10 of Benton township.
15. Hog-back jutting into the valley of the Cedar river, near the Benton-Linn county border.
16. Gravel pit of the Minneapolis & Saint Louis railway, Estherville, Iowa.
17. The blue clay eroded by the drainage stream issuing from the gravel pit of the Minneapolis & Saint Louis railway, Estherville, Iowa.
18. View showing the escaping gas when a pocket of gas-bearing sand in the drift was penetrated; Emmet township in Emmet county.
19. Profile of Chicago, Rock Island & Pacific railroad across Jasper county.
20. Moving sands in the valley of the Skunk river, southeast $\frac{1}{4}$ of section 13, Elk Creek township.
21. Iowan boulder in section 29, Hickory Grove township, Jasper county.
22. Rapid erosion in Wisconsin drift, in Jasper county.
23. Geological section from Prairie City to Newberg, Jasper county.
24. Quarry in Coal Measure sandstone, north of Lynnville, Jasper county.
25. Clay pit of G. H. Orcutt; one-half mile west of Monroe, Jasper county.
26. Exposure of weathered, brown sandstone of the Red Rock formation; section 30 of Rock Creek township, Jasper county.
27. Herwehe quarry in Red Rock sandstone, northwest $\frac{1}{4}$ section 8, Fairview township.
28. Loess overlying Kansan drift in cut along Newton & Northwestern railway, Palo Alto township.
29. Loess bluff twenty-five feet in height containing numerous land shells and lime concretions.
30. View of the sanitarium mineral well, in winter, Colfax, Iowa.
31. View showing Niagara limestone in Peter Gypsum's quarry, Clinton, Iowa.
32. (a) Upper section shows bedding of thin drift in Scott county gravel pit, near DeWitt.
(b) Lower section shows bedding in the drift in a gravel pit near Grand Mound.
33. Bluff of Devonian limestone in south bank of Volga river, near Eagle Point.
34. View showing the gentle erosion curves of the Maquoketa shales, and the scarp of Niagara crowning the slope.
35. View showing topography of the area over which the Upper Maquoketa shale underlies the superficial materials.
36. View of the gravel terrace along the Turkey river near the old Huntsinger bridge, two and one-half miles east of Eldorado.
37. View looking up the post-glacial gorge carved in the Galena-Trenton limestone.
38. Beds of *Isotelus maximus*, section 35, Clermont township.
39. Exposure of the Lower Maquoketa shale in the south bank of Otter creek, Elgin, Iowa.
40. A small fold in the Lower Maquoketa shale at the horizon of *Orthis whitfieldi*, Clermont township.
41. View in abandoned clay pit of Clermont Brick and Tile Company, Clermont, Iowa.

FIGURES.

42. Falling spring near middle of south side of section 35, Auburn township.
43. View of Niagara limestone in the old Williams & Davis quarry, Fayette county.
44. Section of the Niagara limestone at the "Devil's backbone", two and one-half miles southeast of West Union.
45. Exposure at Westfield bridge in the town of Fayette.
46. Cut along the Chicago, Milwaukee & Saint Paul railroad a short distance west of station, Fayette, Iowa.
47. Ledge of Cedar Valley limestone near northwest corner of section 2, Bethel township.
48. Buchanan gravels in a pit at West Union.
49. Bluff of fossil-bearing loess in the west bank of Turkey river, section 30 Clermont township.
50. Williams' quarry in Niagara limestone, section 24, Clermont township.
51. Shale pit of the Clermont Brick and Tile Company, Clermont, Iowa.
