## ARMY CARTRIDGE REVOLVER.

### ADVANTAGES OF THESE REVOLVERS.

Are light and simple in construction, durable, and safe to carry, are easily and quickly loaded and cleaned.

Shoot 7 Water-proof Cartridges, which can be procured from any gunsmith in the country.

The Cylinder is firmly locked by a spring underneath at the instant of discharge, preventing accidents which frequently occur with other Revolvers.

Never misses, and can be fired 100 times with precision, without cleaning.

The Cylinder is not removed to load, and no accident can happen from improperly closing the same after loading.

### DIRECTIONS.

Place the hammer at half cock. Press back spring A, and side-plate B, at same time.

Insert cartridges and push them home. Push out discharged shells with small rod.

Carry, when loaded, with the hammer on the cylinder between the Cartridges, and they can not be exploded by accident.

### PENETRATION.

At 15 feet, penetrates 7 inches pine wood.  
At 30 feet, penetrates 6 inches pine wood.  
At 60 feet, penetrates 5 inches pine wood.

## For Wounds either occasioned by the the Bayonet, Sabre, or Bullet, Sores or Bruises,

To which every Soldier and Sailor are liable, there are no medicines so safe, sure, and convenient, as Holloway's Pills and Ointment. The poor wounded and almost dying sufferer might have his wounds dressed immediately if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round it, then covered with a piece of linen from his knapsack and compressed with a handkerchief. Taking, night and morning, 6 or 8 Pills, to cool the system and prevent inflammation.

Every Soldier's Knapsack and Seaman's Chest should be provided With these valuable Remedies.
