

THERE

Is it sentimental
when a grandmother

with cancer complains,
“I’m just not a loner,”

and that word jumps forward,

Brando on a motorcycle
a long time ago?

★

The wind passes
shadows
over rolling scrub as if

the word “There”
were being repeated.

★

“Be there”
meaning exist?

★

People buy photos
of the famous
murder-scene because

murder is content.
