

[DAPHNE, LIPICA, STRICKEN LANDS]

daphne, lipica, stricken lands
stricken horses, stricken stamping
gelid humor, angels' work, brides
I see a fox, we ride on horseback the sea of plains

we ride on a flint zone
karst people are here & teran
castle, rilke, impeccable dreams
boats, duino, robbers in black bandanas

schloss ab, lock it, lock it well
i ladri vengono come vento, sticking their breasts in the air
with their black half top hats below their eyes
a widow takes a new partner, we fall among slavs
