

DESALES HARRISON

*Cow*

eight maybe nine skinnies    some with AKs

one guy    no shit    riding an actual cow

held some kind of stick

they didn't notice me

raise my rifle    first time ever    take aim

but a littlebird popped over the roofs and saw me and

they saw the littlebird    scattered    leaving

when the littlebird opened fire

that cow

standing there

it was like someone snipped

the strap that holds a cow together

what I thought was    *that's no cow anymore*

*that's what I did*
